# DT5

Digital Pocket Thermometer with Penetration Probe

## Compact pocket thermometer for fast and accurate core temperature checks

The DT5 is a compact digital pocket thermometer with integrated penetration probe, designed for core temperature measurement in food and general product checks. The waterproof IP65 case and simple °C/°F reading make it practical for everyday professional use.

- -40°C to +350°C
- IP65 waterproof
- Integrated probe
- LR44 battery

## KEY FEATURES

- Integrated penetration probe for core measurements
- IP65 waterproof protective case
- Compact pocket-size design
- °C / °F unit selection
- Clear digital display with 0.1° resolution

## APPLICATIONS

- Food core temperature checks
- Kitchens and catering operations
- HACCP spot inspections
- Incoming goods control
- General penetration measurements

## TECHNICAL SPECIFICATIONS

| Parameter | Specification |
|---|---|
| Model | DT5 |
| Measuring Range | -40°C to +350°C |
| Stem Dimensions | 3 × 127 mm |
| Unit of Measure | °C / °F |
| Resolution | 0.1° |
| Accuracy | ± 1°C; ± 2°F |
| Power Supply | 1 × LR44 battery |
| Protection | IP65 waterproof case |
| Compliance | CE marked |
| Weight | 29 g |
